

Sabre .Res

Be there for your customers with Sabre .Res when they shop or book travel online, anytime.

Sabre .Res makes it easy and affordable for you to offer a travel booking Web site to your customers. And since it's powered by the high-capacity connectivity of the *Sabre*® global distribution system, *Sabre .Res* gives you popular features both you and your customers will enjoy!

More for your customers

With *Sabre .Res* your customers can shop and book travel online with your agency, 24/7. They can choose from a selection of over 400 airlines, 32 car rental companies and 66,000 hotel properties worldwide. Other customer benefits include:

- Log-in options without having to complete a personal profile
- Hotel photos, multiple languages and currency conversions
- A "shopping cart" feature reserves their choices until they're ready to book
- Fully integrated with *Sabre Virtually There* providing itinerary, flight notifications, gate and terminal details, and destination information

More for you

In addition to your offline store, *Sabre .Res* provides another revenue stream, with booking credits, commissions, service fees and banner ad sales. And to make your workflow smoother, *Sabre .Res* also:

- Bundles important pricing features (carrier and airport exclusion lists and carrier-specific service fees)
- Offers the ability to quickly and easily customize or change the look of your Web site
- Provides you with your Web site traffic reports
- Personalizes your customer service with a consumer preferences database

Get Sabre .Res today

To get your *Sabre .Res* Web site, contact your local *Sabre Travel Network* support team. For more information, visit the *Sabre .Res* community page on *Agency eServices* at <http://eservices.sabre.com>.

The screenshot displays the Sabre .Res booking interface. At the top, it shows a progress bar: request > select flights > your shopping cart > reserve > confirmation. Below this, there are sections for:

- Where and when are you travelling?**: Includes fields for 'From' (city or airport code), 'Return Journey' (radio buttons for One-Way and Return), 'Depart Date' (8 Mar 07:00 AM), and 'Return Date' (15 Mar 04:00 PM).
- Who is going on the trip?**: A table for passenger types:

Adults: 1 (ages 18-64 years)	Children: 0 (ages 2-11 years)	Infants / No Seat: 0 (ages 0-23 months)	Infants/Seat: 0 (ages 0-23 months)
Senior Citizens: 0 (ages 65+ years)	Youth: 0 (ages 12-17 years)	Students: 0 (ID Required)	Military: 0 (ID Required)
- Do you have any special preferences?**: Includes a dropdown for 'Class of Service' (Economy) and fields for 'Airline'.

Sabre .Res offers a lot of flexibility for you and your online customers.
