

Best-in-Class Travel Procurement

Look to Sabre to unlock the secret to travel procurement

How do you procure travel when prices and inventory are changing every minute? You need a global distribution partner who reduces the complexity of sourcing travel, yet enables the same rigorous process you apply when procuring other goods and services. Only Sabre® can provide you with a complete set of travel procurement solutions to source and manage your travel program, allowing you to maximize savings and increase service and security.

Best-in-Class Travel Procurement

Maximize Savings

Providing capabilities that maximize savings is central to our procurement advantage. When it comes to finding low fares, *Sabre* beats all other global distribution systems (GDS). A 2008 independent study has proven that we save you an average of 10% per ticket*. And we find the lowest available fare up to 15 times more often than other GDSs in North America.

The *Sabre*® GDS also sources the broadest selection of inventory across multiple suppliers. This ensures you can secure the lowest published and negotiated rates via the most efficient marketplace. With inventory from 400+ airlines, more than 84,000 hotel properties and over 30,000 car rental locations in one place, you'll have more control over your travel spend.

You can realize additional savings by using *GetThere*®, the industry's leading online booking tool, with the *Sabre* GDS. *GetThere* provides travelers with an efficient and easy-to-use experience resulting in 41% higher global adoption rates than the industry average.

Together, *Sabre* and *GetThere* ensure compliance with your company's travel and expense policies. In addition, we'll enable you to optimize your commitments with travel suppliers, and move more travel transactions online. The result: even greater savings to your bottom line.

Increase Traveler Service and Security

Focusing on the needs of your traveling employees is equally important – after all, they are your most valuable asset. We leverage our deep travel expertise to develop tools that enhance traveler service and improve security. Keep your travelers productive and informed with *Sabre*® *Virtually There*®. Travelers can access their travel itineraries 24/7 via PC or mobile device and receive up-to-the-minute flight information. And, you can efficiently locate travelers anywhere in the world in the event of an emergency with the *Sabre*® Traveler Security and Data Suite.

When you combine our procurement advantage with our deep travel expertise, you'll unlock the secret to travel procurement.

To learn more about how to minimize your travel costs and maximize efficiencies, visit sabretravelnetwork.com. Or, contact your *Sabre* account director or a *Sabre Connected*SM travel management company.
