

Sabre Traveler Security and Data Suite

Locate your worldwide travelers quickly and easily with *Sabre Traveler Security and Data Suite*.

Safety and security of travelers is extremely important in today's travel environment. With our new *Sabre® Traveler Security and Data Suite* you can easily find out where your travelers are and respond quickly in the event of an emergency. With this innovative tool you will now be able to search up-to-date reservation data online and immediately view a list of travelers whose reservation was booked through *Sabre®*.

Easy to use

The interactive, easy-to-use web application is available 24 hours a day, seven days a week via the *Sabre® Agency eServices* Web site. Once you log in, you will immediately see a map of where your travelers are located. You can drill down to traveler counts by specific locale and request either a summary or detailed report. You also have the option to view your traveler's itinerary using an easy link to *Sabre® Virtually There®*. We can even alert you when the number of travelers or executives exceeds the corporate flight threshold policy. Best of all, there are no scan charges to store or retrieve the data.

Valuable data

With one simple request, you can also search air, car and hotel reservations for many data needs, including pre-trip and three years of historical data. Whether you need to manage corporate travel policy compliance or negotiate a supplier deal, the *Traveler Security and Data Suite* provides all the information you need at your fingertips. You can even download the information to Microsoft Excel or a PDF file.

Peace of mind

Give your clients peace of mind knowing that whatever situation arises, you can quickly and easily locate their travelers anywhere in the world.

Contact your *Sabre* Account Executive for more information on how you can expertly manage your corporate travelers with the new *Traveler Security and Data Suite*.
