

# GIVE TRAVELERS ONE PLACE TO MANAGE ALL OF THEIR TRIP DETAILS

## TRIPCASE

Today's travelers move faster and have a lot more information to keep track of - flight times, hotel addresses, client meetings, transportation from the airport...the list goes on. *TripCase*® gives travelers a single place to easily manage all the details of a trip. As changes occur to flight schedules, travelers can be notified directly on their smartphone or wearable device.

Travelers can access *TripCase* at no cost through the website or mobile app. With *TripCase*, a traveler is provided with up-to-date itinerary details, valuable tools and exclusive travel information - before and during each trip.

**Once your travelers create their own TripCase account they will be able to access key travel documents and information at the tip of their fingers.**

### WHAT'S IN IT FOR YOU

**BUILD YOUR BRAND IMAGE** with configurable document delivery and in-app messaging.

**KEEP TRAVELERS INFORMED** by providing information when they need it. Changes from the *Sabre Red Workspace* are automatically loaded into *TripCase*.

**HELP TRAVELERS BE PREPARED** by providing easy access to itineraries, eInvoices, eTicket receipts, flight notifications, road maps, weather forecasts and the ability to share trips.

**SAVE TIME AND REDUCE CUSTOMER CALL VOLUME** by empowering customers with self-service capabilities, such as click-to-call and alternative flight options.

*TripCase Connect* helps you deliver great service. It's part of the *Sabre Red Service Suite*, which includes Customer Profiles, Web and Mobile, Traveler Security and Community.

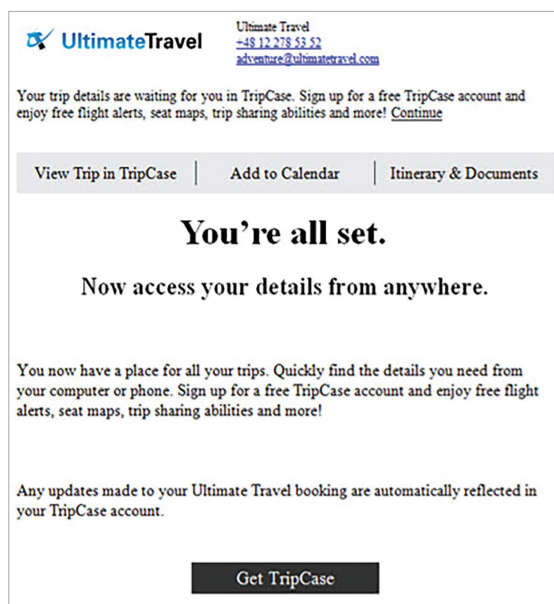

## HOW IT WORKS FOR YOU

As soon a trip is booked, the flight, car and hotel reservation details are automatically added to a traveler's *TripCase* account. Additional plans can easily be added by forwarding confirmation emails to [trips@tripcase.com](mailto:trips@tripcase.com) or by manually adding the information directly in their account.

In addition to the trip being automatically added to the traveler's *TripCase* account, an agency may also send a confirmation email with the important travel documents via email. The email may be configured in 24 languages and can include an agency's or corporation's logo at the very top. This service is free for all agencies that encourage their travelers to use *TripCase*.

If a traveler doesn't have a *TripCase* account, they will receive a confirmation email prompting them to find their travel details in one place by creating a *TripCase* account. Agencies, corporations, and suppliers are able to customize these emails with their logos, increasing their brand awareness.

Through *TripCase*, they can access eTickets, eInvoices and itineraries. Agencies can also send personalized messages to travelers through the *Tripfeed*. Having this information allows travelers to be more independent and smarter while en route.

**Build your brand with your logo displayed at the top of the traveler confirmation email.**

## HOW YOU WILL STAND OUT

RELIEVE YOUR TRAVELERS' STRESS with the free flight alerts they will receive from *TripCase*.

MAKE IT EASY FOR YOUR TRAVELERS to access your agency when they are in a bind with just a touch a button.

GIVE YOUR TRAVELERS THE VIP TREATMENT with relevant messages based on their location, flight schedule, corporate policy and more.

DELIGHT YOUR CUSTOMERS when they see their favorite technology leaders like Uber, Instagram, Foursquare and Samsung integrate with *TripCase*.

SAVE YOUR TRAVELERS TIME with the ability to automatically keep family, friends and coworkers updated with their trip details.

*"Consultants find TripCase simple to use and are encouraging all their clients to sign up. TripCase has allowed us to provide a significant "value add" to our clients at no cost. The branding of the App with the Travel Together logo means that the benefit received by the client has been attributed to Travel Together."*
