

HAVE IT ALL WITH A WORKSPACE TAILORED TO YOUR UNIQUE BUSINESS NEEDS

SABRE RED WORKSPACE

The Sabre® Red™ Workspace is an easy-to-use, configurable agent workspace. It is the gateway to all of your travel reservations and management needs, including the Sabre® travel marketplace, making it your one-stop shop.

The Red Workspace enables an agency to have unprecedented flexibility. Traditional and graphical workflows allow agents to efficiently work in the mode that best fits their needs. And the power of the Red Workspace is opened to even more possibilities with the ability to add Sabre® Red™ Apps.

Email air, car and hotel itinerary options during the shopping process without leaving your workflow.

WHAT'S IN IT FOR YOU

CUSTOMIZE THE WORKSPACE to meet your unique needs and control configurations across the agency for optimal efficiency

WORK AND TRAIN FASTER through enhanced views, integrated content, and a streamlined booking process, all without leaving the workspace

OFFER YOUR TRAVELERS MORE with custom offers from suppliers, plus rich content like 360-degree views

EXPAND THE CAPABILITIES of your workspace by integrating Red Apps from a range of developers

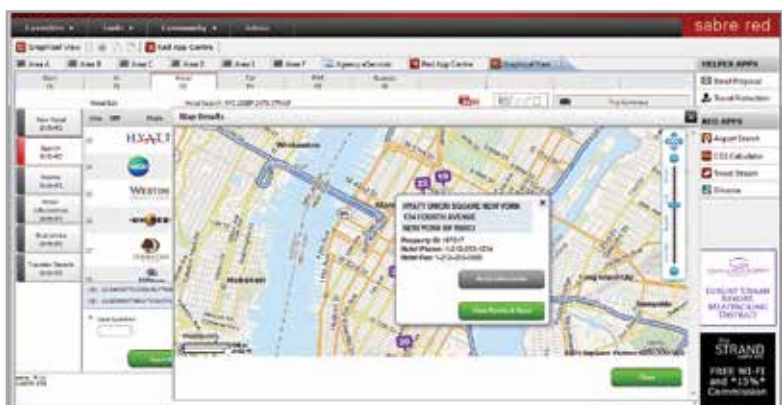

Sabre Red Workspace helps you become more efficient. It's part of the Sabre Red Efficiency Suite, which includes Apps, Business Intelligence, Consulting, Developer Tools, Direct Fare Filing, Post Booking Automation and Workflow Management.

HOW IT WORKS FOR YOU

The *Red Workspace* is highly customizable and configurable to best meet the needs of each user. Administrators can control which applications and features are available in the workspace to optimize efficiency across the agency. And agent workflow is dramatically improved with the *Red Workspace*. Its intuitive interface provides easy access to all the capabilities agents need to efficiently deliver great service.

Agents can choose between a traditional or fully graphical workflow - or a hybrid of the two. With a simple, fully graphical workflow, agents can shop and book air, car and hotel content, and then email options to the traveler. The graphical view gives agents the flexibility to easily take advantage of all the benefits of the *Sabre* travel marketplace.

Agents can further extend the power of the *Red Workspace* by adding *Red Apps* from developers around the world. The result? A truly flexible workspace with the capabilities that enable agents to stay ahead of evolving customer needs.

In our graphical view, find hotels on maps according to proximity to specific locations.

HOW YOU WILL STAND OUT

EMPOWER AGENTS with all the capabilities they need to deliver great service efficiently.

STREAMLINE CUSTOMER COMMUNICATION with professionally-formatted air, car and hotel itinerary options emailed directly within the workflow.

MANAGE WORKSPACE CONFIGURATION across the agency by group or individually via the administration tool.

EXTEND YOUR WORKSPACE through the world of innovations provided by *Red Apps*.

REDUCE TRAINING time through the use of simple, yet powerful, graphical workflow capabilities.
